“ Jack no doubt was definitely one of the good guys. From his easy going nature, to his great listening skills, to the talent he had in his wood working and the ability to carve (yes, he taught me) left me in awe of such a remarkable man. In late 1981, I went to him for his opinion on whether my old car would get me cross country because I was moving to Florida. He did not steer me wrong, it did. I valued his guidance and advice. I've added a photo of one of his many carvings that I have from him. Rest In Peace Jack, you deserve it. Loved by Suz Dombrowski
