“ *Trish was one of a kind. She was funny and kind and generous. I looked forward to spending time with her every time we were in Glen Arbor. The world seems a little smaller - and definitely less fun - without her in it.*

*My condolences to her family on the loss of such a special person.*

*We were just sitting around sipping wine and reminiscing about Trish. We were sorry to learn of her passing as it seemed way too soon. She is remembered by us as a naturally classy lady and kind person. We're missing her still.*
